

Serial No. 09/630,402  
Attorney Docket No.: 006593-1874  
Supplemental Amendment

**Remarks**

New claims 33 and 34 have been added. Similar to claim 31, new claim 33 specifies that the "said first locking member and said spacer interact with said rod and said anchor component to prevent movement of said rod toward said second side of said anchor component, wherein said second locking member interacts with said rod and said anchor component to prevent movement of said rod toward said first side of said anchor component, and wherein said spring is in a compressed and stationary state between said first locking member and said anchor component." Thus, claim 33 is defines over the Klingens, Thomson and Lyons references for the same reason as claim 31 as noted in the Amendment of October 19, 2004.

Accordingly, for the reasons submitted in the Amendment of October 19, 2004 it is submitted that the application is in a condition for allowance and a formal notice thereof is respectfully solicited.

The Commissioner is hereby authorized to charge any additional fees required, including the fee for an extension of time, or to credit any overpayment to Deposit Account 20-0809.

Respectfully submitted,

---
